JUCKET HOUSE
St. Charles, Kane County, Illinois

Owner - Unknown, Charles Saelems, present occupant.

Date of Erection - Circa 1850

Builder - Dr. Leonard Jucket

Present Condition - Fair

Number of Stories - One and one-half

Materials of Construction - Frame construction, basement walls are of rubble stone, exterior siding pine, as are the shingles.

Additional Data - This one and one-half story house, built about 1850 at the north west corner of Third Street was built by Dr. Leonard Jucket.

Little is known of the early history of either building or owner, except that Mr. Jucket was a maker and seller of his own medicine and salves, (and for that reason was called "Dr. Jucket").

The one story portion is no doubt an addition, for the cornice and pilaster cap of the main entrance are repeated in the porch treatment to the north. The difference in siding also supports this theory.

New sash and doors have replaced the originals in the first floor.

Sources - Personal observation and reports from neighbors and the present occupant, Mr. Charles Saelems.
